Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached Form PTO 1449.

Regarding the non-English language documents, in lieu of a statement relevance, Applicants submit herewith a copy of an Office Action issued by the German Patent Office in a counterpart application on April 23, 2004, and an English language translation of the Office Action. Applicants believe that the Office Action sets forth the relevance of the non-English language documents.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
